Empire Medical Training has updated the [Weight Management and Medical Fitness](#) program to include the newest options available for physicians to help patients fight the battle of obesity. With obesity reaching epidemic proportions in the U.S.A. strategies to prevent obesity and to provide weight management alternatives becomes an important issue for physicians to address.

To offer the latest options with the safest and most reliable results will have a much greater impact on the problems associated with excessive weight such as diabetes, mental fatigue and back problems. The hCG Weight Loss protocols and therapies are quickly becoming the new standard therapy along with Bio-identical hormone replacement therapy, physical therapy, and cellulite reduction.

The [hCG Weight Loss](#) protocols and therapies are proving to be both beneficial to patients as well as profitable to the physicians practice. The new hCG diet and medical protocols allow physicians to earn more per patient within a couple of months after they have entering this weight loss program. With this treatment the quick and effective reduction in weight is relatively easy for the patient making this the most sought after treatment on the market.

The physicians who integrate this new weight management option into their present weight loss programs will soon see the benefits financially along with the improvement in overweight patients. At Empire Medical Training each attendee will learn what the benefits, protocols, indications for, and advantages of this new weight loss concept and how easy it is to integrate this program into any existing practice.

Physicians have many benefits for implementing the [hCG Diet](#) and weight loss program such as retailing of supplements and nutraceuticals as well as other aesthetics services (cellulite reduction/hormone therapies) that allow for a total body experience for patients. Weight loss leads to other profitable procedures and services such as cellulite reduction, anti aging procedures, Bio-identical hormone replacement therapy, lipo therapies and more. Weight loss is a springboard for other aesthetic services.

With Empire Medical Training it is possible within a short amount of time to update the Weight Management programs in any practitioners' office or medical facility. Learn all of the various diet methods being used as well as receive complete protocols, patient education, meal planning, nutrition, supplements and how to create an office staff environment dedicated to a weight loss program.

With Empire Medical Training learn how to process each patient by creating workups needed for various different patient types with suitable individual diet plans. Include the blood and hormonal pattern testing as indicated for the different types of patients within each practice. Initial consultation questionnaires along with forms and protocols that are digitally included as part of the course as well as a detailed outline of how to get started.

Empire Medical Training is consistently adding new training programs that provide the newest techniques and procedures in fat injection/transfer/grafting, weight loss, anti-aging, and pain management along with cosmetic enhancement procedures. Empire provides hands-on training workshops for a variety of comprehensive procedures including Botox Cosmetic, Dermal Filler and Autologous Fat Transfer.

The Newest concept for Aesthetic training is the Private Aesthetic Training program for details on this program or any other medical workshop contact Dr. Stephen Cosentino toll free at 1-866-333-6747 or at <http://www.empiremedicaltraining.com>
